To whom it may concern:

I Barbara H. Reddick did not authorize anyone to debit my account for accidental insurance. all I requested was dental. I'm here by making a request that all funds debited from my account for the accidental insurance be refunded to me immediately. No one ever mentioned anything about accident insurance to me; when checking my account, I called to find out what the extra charges were for, that's how I found out. I think this is very unprofessional.

Sincerely,

Barbara H. Reddick
